Off To A Great Start!

TERRY & TOM MYERS

SUPPORT PLEDGED

BULGARIA

The Literacy Program started their new school year in September with 12 children attending!! Each of the children was given notebooks and other school supplies. We have a range of ages attending, from the youngest who work on learning their letters and numbers to the older children who work on Bulgarian language, math and other skills. Once a week there is also an English lesson and the children love practicing their English. Please pray for the teachers as they work with the children, and for the children to see the importance of attending school.
